Proposals under development: being tested in the Evesham Traffic Model

Comment

Worst case

Proposals under development: being tested in the Evesham Traffic Model (continued)	Comment
<p>Testing in the Evesham Traffic Model the combined effect of: Replacing the roundabout at Elm Road/ Broadway Road/ Port Street junction with traffic signals, and Upgrading the traffic signal control equipment at Port Street/ Waterside/ Bridge Street junction.</p>	<p>Should these two proposals both individually 'pass' the model-testing, testing their combined effect will be most informative.</p>
<p>Walking and cycling network.</p>	<p>Traffic surveys have shown that a significant proportion of car-borne trips in Evesham are</p>
